Stehven Obando Córdoba

Software Engineer in training · Full Stack

Pasto, Nariño, Colombia · stehven.obando@campusucc.edu.co · github.com/StehvenObandoUcc · linkedin.com/in/stehven-obando-399760407

PROFILE

Fifth-semester Software Engineering student. I build desktop, mobile, wearable and web apps, from the backend to the interface, and deploy them to the cloud. Open to internships and junior roles.

PROJECTS AND TECHNICAL EXPERIENCE

Pulso · Desktop app · solo project — Oct 2026 — now

- Designed and built a team app that tracks time and activity, organises projects and tasks, and works offline.
- Shipped installers for Windows, macOS and Linux (v0.1.3). AI reports only quote figures computed in SQL, and role permissions live in Postgres RLS policies.

Tauri, Rust, React, TypeScript, Supabase · github.com/StehvenObandoUcc/app-escritorio

Recuerda · Wear OS, web dashboard and API · team — Sep 2026 — Nov 2026

- Medication reminders: a watch app that works offline, a dashboard for caregivers and an API that builds the dose plan.
- Set up the backend environment, built the API and worker deployed on Heroku, and the watch UI, tested on a Galaxy Watch4.

Kotlin, Jetpack Compose (Wear OS), FastAPI, PostgreSQL, Heroku · front-smartwatch.vercel.app

Veltro ERP & POS · Frontend · team of three — Mar 2026 — May 2026

- ERP and point-of-sale interface: dashboard, POS terminal, catalogue, inventory, purchasing and suppliers, with role-based access (admin, warehouse and cashier).

React, TypeScript, React Query, Zustand · github.com/StehvenObandoUcc/FrontendVeltro

Food AI · Mobile app · course project, in progress — Sep 2026 — Oct 2026

- Recognises food from a photo with a vision model, flags expiry dates and suggests recipes, with its REST API deployed on Heroku.

React Native, Expo, FastAPI, Supabase · github.com/StehvenObandoUcc/App-mobile-front

Descending to my Heaven · 3D video game · team, in progress — Oct 2026

- Third-person boss rush with three tactical-AI bosses, released as a Windows executable (v1.0.0-rc1).

Godot, GDScript

Huellas de la guerra · Web documentary — Oct 2026

- Scroll-driven storytelling site in Spanish and English about animals in Colombia's armed conflict.

GSAP, Vercel · huellas-de-la-guerra.vercel.app

EDUCATION

Software Engineering · Universidad Cooperativa de Colombia, Pasto campus

Semester 5 of 8 · in progress

TOOLS

Frontend	Next.js, React, Tailwind CSS, TypeScript
Backend	NestJS, Node.js, FastAPI, Flask, Java
Desktop & mobile	Tauri, Rust, Kotlin, Jetpack Compose (Wear OS), React Native, Expo, Godot
Data	PostgreSQL, Supabase, SQLite, SQL
Cloud & DevOps	AWS (Lambda, S3, IAM), Heroku, Docker, Git & GitHub

COURSES

Jornadas Cloud: Serverless AWS · Commit Academy · completed, Sep 2026
Digital Marketing with AI · BIG school · completed, Sep 2026
Tailwind CSS: de cero a experto · Udemy · in progress
GitHub Foundations · AI+ Foundation · Avanzatec / MinTIC · in progress
Networking Basics · Introduction to Cybersecurity · Cisco Networking Academy · in progress

LANGUAGES

Spanish, native · English A2, working toward B2
